Pulse Furniture Design

Pulse Furniture Design is Canadian manufacturer of high quality modern furniture. The website is equipped with an interactive software package for designing and building your own furniture. Pulse furniture guarantees a 100% sweat shop free workforce and an eco-friendly policy towards all of the furniture. All of the employees are part-owners, and everything they make is manufactured in Winnipeg, Canada. They use local suppliers to avoid the green house emissions that come with transporting materials all over the world.

Contact them at: 1.800.720.7162 or www.pulsestyle.com.

View some of their creations below:

about me

S Peterson
San Francisco,
